Puder strikket i XL garn

De to puder er hurtigt strikket i vamsset XL garn. Se opskriften, der kan printes som en særskilt pdf-fil til denne ide. Opskriften er den samme på begge puder, eneste forskel er antal masker og omgange. Disse puder er strikket på p. 35 og bliver faste i strikket. Der bruges knap 2 ngl. pr. pude.

Knit the cushion as described in the pattern. When the desired length of the cushion is reached, the stitches are put onto a thread (here we have used a piece of sock wool, doubled over twice). Tighten completely to close one end of the cushion. Tie a knot and hide the ends by pulling them into the inside.

Use a piece of sock wool doubled over twice and make a large loop. Fold the ends of the 20 cm pieces of wool around the sock wool and inwards along the stuffed pillow. Tighten and tie a knot. Hide the yarn ends by pulling them into the inside of the cushion.

Another variant

Cut 7 x 40 cm pieces for the other end of the cushion and knit these from the front into the first diagonal row and from the back into the adjacent diagonal row; 20 cm yarn for each diagonal row.
