Pung til nøgler og headset af læderpapir

Små punge til nøgler og headset af læderpapir er syet efter mønsterarket, der findes som en særskilt pdf-fil til denne ide.

01

Print and cut out the template which is available as a separate PDF file for this idea. Copy the template onto imitation leather paper. Cut two parts for each pouch from faux leather paper.

02

Sew the two parts together very carefully and slowly. Try to use the same holes when sewing back-stitches to secure the beginning and the end of your stitch. This is to prevent the paper from ripping too much. Remember to leave an opening for the cord in the middle.

03

Double over a piece of leather cord, tie it onto the keyring and feed the cord through the pouch. Attach another keyring and finish with a knot. On the pouch for the keys there should be approx. 2 cm from the edge of the pouch to the keys. On the pouch for the headphones there should be approx. 9-10 cm.
