

Kasse af træ til flasker malet og dekoreret med stempler

Flaskeholderen af træ er patineret med vandfortyndet Plus Color hobbymaling, så træets årer fortsat kan anes. Herefter er tekst og grafik stemplet på med ufortyndet maling i andre farver fra samme serie.

Inspiration: 13632

1.

Mix Plus Color craft paint with water in the ratio 1:1 (half and half). Apply the diluted paint onto the bottle holder with a brush and leave to dry.

2.

Dab a foam stencil brush in undiluted Plus Color craft paint. Apply the paint onto the foam stamp using the foam stencil brush. Now stamp a text and a graphic design according to your own taste – and in different colours. For example, the word “lemonade”.

**A TIP**

The bottle holder may be used for three milk bottles, each measuring 550ml.
