1

Use Clear Glue Gel to make small dots on the glass bauble in a pattern according to your imagination. Hold the bauble by the metal collar with the loop for hanging. Hang up to dry eg: on a flower stick resting between two objects.

2

Thread a gold bead chain through the loop at the top of the glass bauble and assemble the chain with its matching collar fastener. Decorate further by attaching a small piece of brass wire onto the metal star. Tie the metal star onto the bead chain.
