

Pung til nøgler og headset af læderpapir

Små punge til nøgler og headset af læderpapir er syet efter mønsterarket, der findes som en særskilt pdf-fil til denne ide.

Inspiration: 14866

1

Print and cut out the template which is available as a separate PDF file for this idea. Copy the template onto imitation leather paper. Cut two parts for each pouch from faux leather paper.

2

Sew the two parts together very carefully and slowly. Try to use the same holes when sewing back-stitches to secure the beginning and the end of your stitch. This is to prevent the paper from ripping too

□ much. Remember to leave an opening for the cord in the middle.

3

Double over a piece of leather cord, tie it onto the keyring and feed the cord through the pouch. Attach another keyring and finish with a knot. On the pouch for the keys there should be approx. 2 cm from the edge of the pouch to the keys. On the pouch for the headphones there should be approx. 9-10 cm.
